

## Web Professional Lite

---

Bring your meeting to life with one of Momentum's dynamic web conferencing services, Web Lite. This simple, yet powerful little brother to our Web Professional enables you to share any Microsoft Based Document that resides on your computer with an audience in a controlled and secure environment.

### FEATURES & BENEFITS

- Completely Reservation-less  
Just like Web Professional, you never have to spend time booking the service since it is ready whenever you are.
- On-line Billing and Reporting  
Go Green! View and retrieve call information and charges in our online account management section. You will always know exactly who has used the service and who has participated in your web conference. In addition, you can choose to receive a participant list by E-mail within 1 hour of your Web Conference.
- Simple and Easy Access  
The conference Moderator and Participants access the login screen from Momentum's public website. Since Web Lite is integrated with our audio conferencing service, you need only enter your audio conference pass-codes to use Web Lite.
- Application Presentation  
Add a PowerPoint, Word or Excel component and present any type of Microsoft document.
- Marker and Pointer  
Annotate your documents with non-destructive graphics and tools, easily highlighting your points while preserving your documents integrity.
- Automatic Enrolment  
Ready... Set... Go! We automatically enroll you in our web conferencing service when we set you up with an account. You only need to enter your audio conference pass-codes to use Web Pro Lite.
- Transfer Control  
Assign control to a specific person or take control of another computer.
- Hand Raising  
Allowing your participants to raise their hands keeps your web conference orderly and flowing.
